

Dear EWEA member,

More than 140 company representatives in 38 countries have already signed the European Offshore Wind Declaration, calling on national governments and the EU to give the necessary political and legislative support to develop a new multi-billion Euro offshore wind industry.

The declaration, drawn up by the European Wind Energy Association (EWEA), commits businesses to ensuring that a sufficient supply of turbines, components, foundations, installation and cable-laying vessels are available to exploit this abundant, free and fuel-free energy source. But crucially, it also calls on the EU and member states to take action to resolve planning, grid and other obstacles to harnessing Europe's enormous offshore wind energy potential.

EWEA asks you to actively support our campaign by firstly signing the declaration (if you have not already done so) and secondly by putting a banner or button on your website linking to www.ewea.org/offshore. The banners and buttons are available for download in different sizes and dimensions [here](#). You can also find our video promoting offshore wind.

Signatories already include companies from all over the world such as Acciona Energia, Airtricity, DONG Energy, E.ON Climate & Renewables, EnBW, GE Energy, Iberdrola Renewables, Mainstream Renewable Power Ltd, NEO Energia - Grupo EDP, Renewable Energy Systems, SIEMENS Wind Power, Suzlon Wind Energy, Goldwind, Vattenfall Vindkraft and Vestas Wind Systems. Representatives of governments, universities, media and non-profit organisations have also signed. The signatories will ultimately be used to highlight to decision makers the significant industry commitment to offshore wind.

For more information on the offshore declaration, to see all signatories, and to support it: www.ewea.org/offshore

Thank you in advance for your support.

Kind regards,

Julian Scola

Communication Director
